

COMPLETE ELECTION RETURNS
FOR GREATER CITY OF NEW YORK.

in the Ninth Congressional District. Even the Eighth Assembly District voted against Adler.

COLER GRATEFUL TO GREATER NEW YORK.

Bird S. Coler eluded all inquiries last night after the late returns were in and could not be found until he appeared at the Democratic headquarters in Willoughby street, Brooklyn, to-day. If he was disappointed over the outcome of the election he showed no trace of it in his appearance. After a short conference with Hugh McCullagh he made the following statement: "I have been asked if I concede the re-election of Gov. Odell. That is something I do not care to discuss just yet. When more definite information is at hand there may be something to say on the vote north of the Greater City."

"In that connection it might be well to remark that if State Superintendent of Elections McCullagh had paid more attention to the election throughout the State there might not have been so much suspicion concerning the striking uniformity of the vote in various remote localities. Mr. McCullagh appears to imagine that the whole field of his operations is confined to two or three Assembly districts in the City of New York."

"Regarding the Democratic vote in Greater New York I want to say that it more than repaid me for all I did and tried to do while I was Comptroller. It shows that the people of my home city realize that I was trying and that they appreciated my efforts. There is more in the realization of this than can be expressed in words."

"The signs are not encouraging for my election although the figures are close. Even though I am defeated I shall carry from this campaign the feeling that I have more friends in my own city than I thought I had. The opportunity came for them to show their friendship and they showed it. For my colleagues on the ticket I have to express my thanks for their assistance. Later on I may have a more extended statement to make after the official returns are in."

M'LAUGHLIN STILL HAS HOPES.

Hugh McCullagh, the Kings County Democratic leader, doesn't admit that "his boy," Coler, has been defeated, and if it should develop later that he has been, the aged boss is prepared to attribute it to fraud on the part of the Republicans up the State.

He also takes the election results as the basis for an argument in favor of dividing New York into two States, one including all that part of the State south of Albany and the other that portion above the capital.

Mr. McCullagh got to the auction rooms on Willoughby street a little after 10 o'clock. He seemed cheerful and pleased with the showing of his candidate. When asked what he thought of the result he said:

"Well, I've been reading the morning newspapers and I find they don't print anything like the same set of figures. There is such a variety that a man must be in doubt."

"To what do you attribute the heavy Odell vote up the State?" he was asked.

"It seems to me," he answered, "that while McCullagh's men were busy watching the wicked Democrats in New York, the wicked Republicans up State were busy doing as they pleased. Mr. Odell got a big vote if the figures given are correct. There were no McCullagh men up there and this is significant."

THE POINT THAT IMPRESSES HIM.

"Looking at the vote this thing impresses me: Coler got a hundred thousand odd plurality below Albany, while Odell got a hundred thousand odd plurality above Albany. Goodness, gracious, I never thought there were so many votes up there. Now, the farmers pay their taxes and demand that they have the privilege of governing the State. But the people in Greater New York also pay taxes and they have reason to demand the same privilege."

"Now, why not split up the State and satisfy every one? There is population enough in the great Empire State to make four States. I don't advocate this, but why not make two—one above Albany and one below? Then each section could govern itself. The farmers could say how affairs in their section should be conducted and the mechanics, merchants and inventors could say how their half should be run."

The result in New York State and throughout the country shows that the American farmer saved the day for the Republican party.

The latest figures make the lower house of Congress safely Republican, with a working majority of twenty-six. These figures are: Republican, 206; Democrats, 180. The present majority in the House is 40.

The Republicans elected their candidates in twenty-seven out of forty-two States, taking Montana and Idaho out of the Democratic column. The Democrats claim the election of Lane as Governor of California, but the Legislature is safely Republican.

Delaware's prolonged Senatorial deadlock remains unbroken. Ohio and Pennsylvania, where the Democrats were thought to have a fighting chance, rolled up their old-time Republican majorities.

The result of the election from a national standpoint indicates that the trust question and other economic problems have not impressed the agricultural voter as forcibly as the city dwellers.

MURPHY ON THE NEW TAMMANY.

Charles F. Murphy did not appear at Tammany Hall until noon to-day. For the first night in weeks he had enjoyed more than four hours of continuous sleep. He announced that he will go away from the city in a few days to rest up.

"As for the election," he remarked to an Evening World reporter, "all I have to say is that Tammany Hall did what was expected of it."

"You are regarded as quite a political prophet since your forecast of the outcome of the election in the city," said the reporter.

"It is not prophecy," replied Mr. Murphy. "It is simply knowing. Reports were made to me by men I knew to be truthful. I placed trust in the reports, and not one failed me. In my own district I figured on 4,500 plurality. Our voters piled up 4,600. We had assurances all over the city that made us confident that we could roll up an old-time Tammany vote."

"Outside of any bearing the vote yesterday may have had in the result of the State election it assures me of one thing, and that is that the Democrats of this city are in a position to elect the next Mayor. The vote shows that the Democracy of New York is united, and when we have a United Democracy no fusion movement can beat us."

"All we have to do is stick together and work together as Democrats, nominate a good ticket and go before the people fairly and we will sweep the city in the local campaign as we swept it yesterday."

M'CULLAGH EXPLAINS HIS COURSE.

John McCullagh, State Superintendent of Elections, remained at his headquarters, No. 64 Broadway, all last night. He said to-day:

"We made more arrests this year than ever before, and the fact that many arrested were discharged by magistrates was because it had to be done so quick and because there were no witnesses, in many cases, who could be obtained during the rush hours of voting. I know of several hundred cases in which suspected men did not even attempt to vote because they knew if they attempted to vote they would be immediately arrested. I am now kept busy arranging the various cases and gathering the witnesses together as the majority of these cases will be convictions."

NEW YORK STATE OFFICERS-ELECT—
SIX OF EIGHT ARE REPUBLICANS.

Governor—Benjamin B. Odell, Jr., of Newburg.
Lieutenant-Governor—Frank W. Higgins, of Olean.
Secretary of State—John F. O'Brien, of Plattsburg.
Treasurer—John G. Wickser, of Buffalo.
Attorney-General—James Cunnecan (Dem.), of Buffalo.
Comptroller—Nathan L. Miller, of Cortland.
Engineer and Surveyor—Edward A. Bond, of Watertown.
Judge Court of Appeals—John Clinton Gray (Dem.), of New York City.

MIXED VOTE IN ESSEX.

(Special to The Evening World.)
NEWARK, N. J., Nov. 5.—Henry M. Newman, the Republican candidate, was elected Mayor of this city by 7,794 over the Democrats, the Democrats being 11,000. Newman was the first to secure in this city.
